

## HEALTH CARE STORIES *for* AMERICA

### Jupirena | Citrus Heights, CA

HEALTH CARELESS My story is to say the least- unbelievable! It is about how our health care system isn't health care at all. I call it: HEALTH CARELESS. It is about Kaiser Permanente committing Medical crime involving the GME Program (Graduate Medical Education), which is funded with Federal money. In 1999 Kaiser

Permanente's Redwood City, California, ENT Department nurse called me at my home and told me that I needed to come back in and see Dr. Robert Wolgat, ENT professor, to discuss the surgery of my right Parotid gland. (You see Mr. President, I was just in a few days before asking Dr. Hoffman to help me stop taking psychotropic medication. This was my last medication after a 4 year successful psychiatric treatment for PTSD.) I was confused about her call. I was not aware that my right Parotid gland was swollen as Dr. Robert Wolgat later explained to me. I trusted him and had the surgery done on November 19th, 1999. After this surgery I became very sick and from there on I realized that I had an uphill battle to fight on my own. Doctors were not willing to tell me the truth about what was done to my body during surgery that was making me so very sick and much less were they willing to treat me properly. But, they were more than willing to use the Medicare system for repetitive and expensive testing of my body parts over and over and over again for 6 straight years. I went to arbitration with Kaiser. My attorney claimed the wrong injury and failed to report it to Medicare as mandated by law. During arbitration my health coverage with Medicare became illegally primary and Kaiser Permanente became secondary; a reversal of future medical care liability considered to be Medicare fraud and a crime under the Medicare Secondary Payer Laws, Rules and Regulations. I became liable to pay for the 20% after Medicare's 80% coverage. I used the equity on my house in Coral Gables Fl. to pay for my relentless efforts to find out, "Why am I so sick?" What have Kaiser Permanente's GME Program doctors done to my body? I used all my money to my very last penny. Please, have a look at JSTEIN.KAISERPAPERS.ORG and learn how the State of California, the State of Florida and several Federally contracted organizations awesomely failed to help me with my deteriorating health by responding to my plea for help with, "... they have done nothing wrong". But most of all, please let me know how I can best help you, President Obama. My serious efforts to tell you my story isn't about me and just me. It is about the thousands of patients of our dear country that were, and will become, a victim of our HEALTH CARELESS system. Sadly, chances are that these "victims" will never come to a complete understanding of the reasons behind their pain and suffering and their sudden loss of health. On November 10, 1000. Kaiser

When a doctor friend told me the lump on my testicle was

Permanente allowed their GME Program doctors to perform the following medical procedures on me without medical need, without my consent, as I slept under general anesthetic and with no concern for my health/life. 1) Dr. Wild performed a medically needless Right Radical Neck Dissection (cut off all my right neck muscles). 2) He sutured my Right External Carotid Artery in several areas. It is now fully stenotic (the vessel is fully narrowed and strictured). 3) He placed a small PTFE Tube (Polytetrafluorethylene) inside my Right Internal Carotid Artery. 4) He placed a surgical clip on my Right Internal Jugular Vein. 5) He dissected (cut off) my Right External Jugular Vein as if I was not going to need it anymore. Today, I am dealing with the devastating consequences from these medical procedures. My right diaphragmatic muscle is paralyzed which is causing my right lung to lose volume. I now MUST use a BIPAP machine and Oxygen on a daily basis. I have serious problems breathing and swallowing. I lost 6 muscles on my right side to needles, dissection and ischemic atrophy. Today, Medicare pays for all my very expensive medical care because during the Arbitration of STEIN vs. KAISER (2001), attorneys Mr. Bruce Albion Bailey (mine) Mr. George E. Clause and Ms. Mary Parks (Kaiser) illegally shifted all my future medical care payments from Kaiser Permanente (primary) to Medicare (secondary). Today, Dr. Timothy Wilfred Wild is Chief of Head & Neck Surgery at Kaiser Permanente, Vacaville, California. By having to get through all of this by myself, I came to understand clearly that there is a need to teach other patients how to protect themselves against our Health Careless system. So, ... I became a patient advocate. Dr. Wild's intentional crime against my health is so violent and horrific, it defies belief. Please see for yourself: <http://www.youtube.com/watch?v=DMXN1wUaQnU> Jupirena Stein "Evil prevails when the good people are silent or take no action."
